2024 - Specialty Race Eligibility

Revised: 04/10/2024

- Specialty races are open to all eligible cars at each HSR event. If you have an eligible car entered in the Sprint races, it will be entered in the appropriate specialty race or races without further action on your part.
- You do not need to register or even tell anyone. You simply need to be on the grid at the scheduled time.
- Each Specialty Race has identification stickers that are available at TECH. Please don't forget to ask if you don't already have them.
- If your car is eligible, it will be noted on your Tech Sheet and the Public Entry List.
- You do not need to change your car number in instances of duplication.
- Each Specialty Race Series has year-end awards.
